43 Pioneer Street,
Independence layout,
Enugu State, 400001.

EXPERIENCE

Elite Perfume Store | Lead Frontend Developer

- Architected a high-performance e-commerce storefront using Next.js, focusing on mobile-first architecture and optimized image delivery.
- Engineered advanced UI layouts with Tailwind CSS, ensuring 100% responsiveness and cross-browser compatibility.
- Optimized deployment pipelines, consistently achieving 90+ Google Lighthouse scores for performance, accessibility, and SEO.

Glamour Gallery | Frontend Developer & UI Designer

- Developed a digital portfolio and storefront for a bespoke fashion brand, emphasizing visual hierarchy and user engagement.
- Translated complex design requirements into clean, modular React components using modern hooks and functional programming.
- Streamlined site navigation and asset loading, leading to a smoother user journey and a significant reduction in bounce rates.

Busha Gemstone | Frontend Developer (Fintech/E-commerce)

- Developed a luxury jewelry platform utilizing React 19 and Tailwind CSS v4 for a modern, high-end user interface.
- Integrated the Busha Pay API, enabling secure multi-currency checkout flows for Naira (NGN) and Cryptocurrency.
- Implemented real-time currency conversion and seamless data fetching, providing a fluid, "app-like" user experience.

EDUCATION

Institution of Management and Technology, Enugu —

Complete Higher National Diploma -2025

Computer Science 2020 - 2025

Anglican Secondary School, Benue State —

Senior School Certificate (SSC) - 2015

SKILLS

- **Analytical Problem Solving:** Proven ability to troubleshoot complex UI bugs and dependency conflicts efficiently.
- **Visual Communication:** Skilled at translating abstract project requirements into functional, high-standard digital assets.
- **Adaptability:** Rapidly adopting cutting-edge tools and frameworks (React 19, Tailwind v4) to maintain industry standards.
- **Attention to Detail:** Dedicated to ensuring pixel-perfect execution and consistent design language across all platforms.

LANGUAGES

JavaScript (ES6+): The core language for all your React and Next.js logic.

TypeScript: (Optional, but highly recommended in 2026 for high-end roles).

HTML5: For semantic and accessible web structure.

CSS3: For advanced styling, animations, and layouts (Flexbox/Grid).

PROJECT

Elite Perfume Store — Architected a "cinematic" Next.js e-commerce storefront with Tailwind CSS, achieving a 95+ Lighthouse score through advanced SSR/SSG and asset optimization. Developed a modular, mobile-first component library to ensure a "pixel-perfect" luxury shopping experience and scalable codebase.

TECHNICAL COMPETENCIES

State Management: Proficient in using React Hooks (useState, useReducer, useContext) for scalable application state handling.

Version Control: Professional mastery of Git workflows, including branching, merging, and pull request management.

Performance Optimization: Expertise in code-splitting, lazy loading, and asset compression to maximize web performance.

API Management: Skilled in handling asynchronous data fetching and secure API-driven transactions.
